JOHN I. MILLS

The Leading Clothier

DINWOODIE

The weather is fine for cattle rustling out, thus saving the hay, and the ranchers are happy.

A. R. Moody passed here the other day on his way to the Barr colony on a sweeping expedition for McDougall and Secord.

David Robertson and William Milligan from East Edmonton passed through here on their way to Grizzly Bear Coulee looking up homesteads for themselves and friends. These gentlemen are old settlers and know what they want, and see the necessity of getting into that country while a pick of the land can be had.

At the annual meeting of the Vermilion valley and Beaver Lake Agricultural Society, held at Vegreville on Nov. 28, the following officers were elected for the coming year:

President, R. Dinwoodie.

First Vice-President, F. W. W. W.

Second Vice-President, Dr. Goodwin.

Directors: D. McCallum, A. R. Moody, R. Fairbairn, E. Lucy, C. Spence, D. L. McLean, R. H. Gibney, J. Stonehooker, B. Tetreaux, W. A. J. Stonehooker and George Abbott.

Each director is empowered to solicit orders for seed oats up to January 1st with a view to shipping a car to Strathcona from Manitoba.

L. Stonehooker was successful in bringing down a couple of fine deer a few days ago about three miles from here. There are quite a few of these animals here and we hope as to preserve them from extinction.

The settlement tributary to this point has been all thrashed out by Poulton's machine of Vegreville. McPoulton says we have the best wheat crops here this year and that what all on new land at that. What and all on new land at that. What and all on new land at that.

Eddy McKitt returned from the Barr colony and reports the colonists well fixed up for the winter. Stop places can be made at any way from Edmonton to Lloydminster.

L. Stonehooker has built a fine frame house on his farm. He is a young bachelor of great enterprise and has from Uncle Sam's domains, and is faithful in his adopted country, and is not alone though.

H. A. Walker and T. B. White were in from the Albion settlement for

supplies, and loaded up with a three months supply.

Engineers are out from the post office department regarding a post office at Birch Lake, in township 19, range 12. It is needed.

WESTERN CANADA
Continued From Second Page.

a Galician house. It was clean and tidy, notwithstanding they cook, eat and sleep, all in the same room. They seemed to be better to do than some of their neighbors, and had a nice little herd of cattle. The Doctor bought a cow and a steer a year ago and paid them \$55. I also saw the old fashioned mill for grinding wheat into flour. The stone is turned with a silk having an iron point. Here, too, I saw the earth oven. These people make fences and buildings out of small sticks, on the same principle that the crockery cases are made. They are very strong and solid, and their buildings are as a rule covered with thatch or sedge.

From here we drove out to the Golden Valley, nearly twenty miles up the Vermillion River, situated between two branches of this river. The water in this is like water colored with molasses, this is how it gets its name. The Vermillion is a very fine part of the country between Vegreville and the Golden Valley. A beautiful growth of grass, velvet peas, etc., is found here. We crossed a branch of this river at different points. It was over the axes of our wagon and so dark that we could not see bottom.

You ask would I advise people to go West? I answer yes, and no. The man that has a comfortable home, I say stay at home and be contented. But the young man who has not a bright prospect before him, and has good health and is willing to rough it for a few years, I would say, young man, go west. When you consider that you can get 160 acres of land as good as can be found in any part of the world for \$10, the conditions being to work on it six months of the year and make certain improvements, this certainly is an easy way to get a home. There are thousands of acres without stump or stone; put in your plough and go ahead; I have met many persons while travelling through this country that have only been settled here a few years, who are today very comfortable. In fact, I did not meet any who were dissatisfied with their circumstances, but all appear to have great faith in their country. The roads were much better on our return, as the rainy season was nearly over. I am told that some years there is no rain from August until the next spring, but never any rain through the fall and winter months, hence no mud. There are a great many teams carrying loads over the trail to Vegreville for stores and for settlers. These horses travel all summer without shoes.

Edmonton is building up fast. A large number of fine structures were erected this year. Edmonton is a growing city and I found the people very friendly. This is the terminus of the railway and is a distributing centre. There are a number of P. E. Islanders here. I saw H. Gordon, who recently went from Charlotte-town, and is doing a good grocery business. I also spent a very pleasant evening with my daughter at the home of H. P. Layton, who is a leading lawyer of this city and has a beautiful home. He is a man of high standing in this town. His wife is a niece of Dr. Taylor of Charlotte-town. I also spent a pleasant evening at the home of Colin Beale, who was born on Prince Edward Island, and is a son of the late Wm. Beale, Bechoque, and a nephew of Jas. Beale, formerly of Charlotte-town. He and a Mr. Kelly are doing a rushing business in machinery and carriages. In this town is still to be seen the first Methodist church, built about fifty or sixty years ago by the late Rev. George McDougall, who gave his life in that western country on behalf of the red man. The timber for this church was cut with a whip saw.

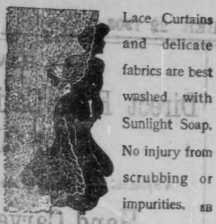

On returning from the Vermillion we travelled the last twenty miles on the south side of the great Saskatchewan River. This is a good timber-pike road and some fine farms or ranches are to be seen here. In Agriculture and also at Clover Bar there are to be seen some beautiful fields of grain and fine wheat fields as far as the eye can see and oats, etc. I think this was as good as any I have seen in all my travels.
